

The City of Worcester Department of Public Works and Parks presents

State of the Lakes:

Water Quality and Initiatives in Our Blue Spaces

Thursday, February 15th, 2018, 6:30-8:30pm

Worcester Public Library Saxe Room

WHAT WE KNOW ABOUT WORCESTER'S LAKES

As part of DPW&P's Lakes and Ponds Program, a comprehensive testing of the water quality in Worcester's recreational waterbodies was initiated in 2017. Join us to learn what we found, and how we are addressing existing and emerging challenges for these valuable assets.

Want to get involved? Come to meet representatives from local watershed groups working to better our waterways.

Light Refreshments Served
